COMPACTED VACUUM FOOD GRADE SALT

High-purity vacuum food grade salt e.g. for refining pretzel baked goods

Area of application

NUTRIKS Pure compacted is a high-purity vacuum salt mainly used for seasoning pretzels and pretzel rolls, such as pretzel sticks and pretzel buns.

The product

NUTRIKS Pure compacted vacuum salt is made from pure vacuum salt and has a Sodium Chloride content of min. 99.8%. The optimum grain size of 3-1 millimeters is particularly suitable for the external refinement of baked goods. This product is a compacted vacuum salt without additives, which retains its shape during baking.

- Highest purity
- No additives
- Defined grain size
- Product shape stability during baking
- Regularly controlled quality
- Specially for pretzel baked goods

COMPACTED VACUUM FOOD GRADE SALT

Product properties

NUTRIKS Pure compacted consists of pure vacuum salt and is, therefore, ideal for use in the food industry. Optimum grain size, good flowability and residue-free solubility characterises the compacted vacuum salt.

Product quality

NUTRIKS Pure compacted is a high-purity vacuum salt with a Sodium Chloride content of at least 99.8%. This is achieved through an elaborate crystallization process and the use of a particularly pure and original brine. NUTRIKS Pure vacuum food grade salt meets the requirements of the Codex Alimentarius and the FCC.

Certification

NUTRIKS Pure compacted meets the highest quality standards, as the production facilities are certified according to IFS or FSSC 22000, as well as EN ISO 9001. A comprehensive HACCP system ensures compliance with hygiene requirements. Kosher and Halal requirements are met.

Our Service

We provide our customers with products of consistently high quality. If required, we support our customers with competent technical application advice. A high level of reliable worldwide delivery is realised through effective and intelligent logistics by truck, vessel or rail.

Delivery range

Packaging size: 25 kg bag (40 × 25 kg per pallet)
900 kg big bag, bulk

Type of packaging: PE-bag, PP-big bag (FIBC)

Composition: Vacuum food grade salt
without additives

Grain size: 3–1 mm

We will be happy to send you a sample on request.
